French 3200 Public Examination June 2011 Marking Board Comments

The following comments were compiled by the June 2011 marking panel. Please use these comments in conjunction with the item analysis and subtest scores for your school and the Outcome Report to prepare your action plan for 2011-2012.

- Students continue to have difficulty with stating answers, particularly for inverted questions.

Exemple: Quel instrument de musique joue-t-il?

Student: **Joue-t-il** de la guitare.

- Item 27 – As outlined in the Table of Specifications, this item requires a paragraph linked to both the general topic of the passage and the course outcomes for culture and communicating. Students must remember that this is an original piece where they have to express their own ideas; the answer is not in the text.
- Tâche 6 (Item #38) – For full marks in content, students had to write the piece as a newspaper article addressing all relevant questions – who, what, when, where, etc. Organizing one's ideas is important and the use of English detracts from clarity as well as vocabulary.
- Students should be encouraged to write a rough draft for all writing items of the examination. This will allow them to organize their ideas and to write with clarity and coherence.
