

English Second Language (ESL)

English Second Language (ESL)

ESL programs are intended for students whose first language is not English and who are unable to benefit fully from regular classroom instruction because of a lack of comprehension or facility in English. The intent of this type of program is to enable these students to develop the necessary English language skills to function adequately in school and in the community.

Authorized learning resources for ESL are provided under the **Reimbursable Text Policy**. According to this policy, school boards are required to purchase authorized learning resources and submit copies of the **paid** invoices to the Learning Resources Distribution Centre.

Senior High

The ESL course offerings at the senior high level are language (1205, 2205, 3205) and literature (3206) based. The language courses range from beginner through intermediate to low advanced while the literature course is designed to help prepare ESL students for English 3201 which is required for entry into many post-secondary institutions.
