

2010 Audit Income Form

As part of the Student Financial Services audit system, we are required to verify the information contained within your 2009/2010 and/or your 2010/2011 application(s) for assistance. Accordingly, 2010 tax year information obtained through Canada Revenue agency (CRA) has been compared to information provided by you on your application(s).

A discrepancy was found, therefore, your application(s) for student financial assistance has been reassessed by prorating your total discrepancy over a 12 month period, resulting in over awards of Canada Student Loans and Newfoundland and Labrador Student Loans/Grants. These over awards will be recovered through your next entitlement.

If you feel your income has not been applied accurately, please complete the chart below and submit to the Student Financial Services Division. If any of this income was received in the form of a Canada Study grant or a Transition grant, please indicate. Please note the total income indicated below must be the same as that reported to CRA for this tax year.

Breakdown of 2010 Tax Year Income

January	\$ _____	May	\$ _____	September	\$ _____
February	\$ _____	June	\$ _____	October	\$ _____
