**Notes:**

<sup>1</sup> A Core French Program plus one or more subjects that are taught in French.

<sup>2</sup> Cycle represents the number of days in the rotating school timetable (e.g, 5,6,7,8). This column refers to total number of minutes of French instruction per cycle. For example, if students meet to receive French instruction for 40 minutes 4 times in a 6 day cycle, the minutes of french instruction per cycle would be 160.

<sup>3</sup> Do not include homeroom period in the calculation of total minutes per cycle. For example, schools operating on a 6 day cycle where students receive 300 minutes of instruction daily would place 1800 in this column.
